PERSONAL STATEMENT

Pursuing my passion for film having come from architecture has been a testiment to my determination and can-do attitude for my future career. I have been fortunate in my variety of experiences in different sectors that have taught me many valuable lessons (not limited to):

- Farming has taught me the value of putting in 110% and a hard days work.
- Hospitality has taught me how to work effectively with and for others to the highest standards.
- Architecture has taught me how to work to elaborate briefs under intense time pressures and practical restrictions.
- Photography has taught me how to work with a client to collaboratively realise their vision.

I am excited for my next chapter amongst the ever changing world of film and to begin working amongst passionate, hardworking teams; building new skills and contributing all I have learnt so far.
